Standard for 4-H and FFA
By: Pam VanHorn

The purpose of the standards outlined below are to assist in determining eligible participation in FFA and/or 4-H Youth Development learning experiences. Both 4-H and Agriculture Education/FFA promote teaching youth life skills. Each program exists to maximize the participants’ knowledge of agriculture and its value to our communities while educating the young people to become productive citizens. Eligible youth may participate in both 4-H and FFA but should avoid duplication. The following standards of participation are used in delivering the 4-H and FFA programs in Kansas.

1. Agriculture Education teachers, FFA Advisors, Extension staff and local volunteers are encouraged to cooperate in sharing information and resources to provide educational opportunities for youth.

2. When young people are members of both 4-H and FFA, they must plan and manage separate projects, and/or supervised agriculture experiences (SAE) programs.

3. FFA and 4-H members may enroll in the same area of experience in 4-H and FFA, however; participants cannot identify, nominate, manage, keep records on, or exhibit the same plants, animals, etc. in both organizations. Members must designate exhibits as either FFA or 4-H at weigh-in, registration or similar deadline.

4. Members may participate in judging contests and related events in FFA and 4-H but cannot represent both organizations at a contest, show or event at the same time.

5. When 4-H and FFA are conducting collaborating activities, both the 4-H and FFA organizations must be represented through emblems and information on all signs, print materials and awards.

6. Collaborating FFA and 4-H activities or events are obligated to have supervision representation from both organizations.

The standards are in agreement with Kansas 4-H and FFA and hereby affirmed by members and professionals in order to participate in either educational program.

Geology Superintendent Needed

The Greenwood County Fair is needing a Geology Superintendent. If you are interested please call the Extension office at 620.583.7455

Opportunity for First Year Swine Project 4Her in Greenwood County

This opportunity is for any Greenwood County 4H member who has an interest in showing swine. This member cannot have shown pigs before. To be eligible, the member has to be enrolled in the swine project by May 1st. The member has to have a desire to want to raise and show this pig to the best of his/her ability. The pig will be donated, as well as the first bag of feed and other necessary equipment. The chosen 4Her will attend a prospect pig sale/auction with the donator. The individuals donating this pig want to help a new member get started in the swine project and will be available for advice.

Those interested, need to submit an essay describing why they want to be in the swine project. They need to describe how they will care for the pig. It doesn’t need to be more than 300 words and can be typed or handwritten. The deadline for entry will be Wednesday, March 13th, at 5 pm in the Extension Office.

Keep in mind that one hog will eat somewhere between 15 -20 bags of feed depending on the animal. I have priced show feed anywhere from $15-$25/bag. That is going to come up something between $300-$500 of feed/pig. Hand feeding the pig instead of having them on a self feeder generally increases the rate of gain, remember we need the pig to weigh 230 pounds to be heavy enough to sell at the fair. Your pig must be tagged at small animal we...

Kansas State Youth Livestock Nomination Process

Step-By-Step Guide

Step 1 - Tagging
Animals eligible for the Kansas State Fair (KSF) or Kansas Junior Livestock Show (KJLS) will need an appropriate Kansas 1-H 1-30 tag placed in the ear of the animal by the agent for qualified individuals designated by agent.

Step 2 - Paperwork & Signatures
Exhibitors and a parent/guardian will complete and sign the updated 2017 declaration and nomination paperwork. Families/Households need to submit one declaration form per year. Additionally, each species has a unique nomination form that must be used to nominate animals. Exhibitors are also highly encouraged to use the checklist data outlines the requirements for each species as a guide to complete the nomination process. These forms may be obtained from the local Extension office or the Youth Livestock Program website (www.youthlivestockks.net), under “Nominated Livestock.” You may also click here for the direct link.

Step 3 - DNA
Exhibitors will pull a DNA sample from the animal and place it in an official DNA envelope. The DNA envelopes are not species specific, but an official envelope must be used. Exhibitors will need to designate the species and tag number on each envelope, as well as include the signatures of the family/household and parent/guardian. Official DNA envelopes may be obtained from the local Extension office. DO NOT CUT THE HAIR - hair follicles MUST be intact for submission to be valid. Detailed instructions and videos for pulling DNA on each species may be found on the Youth Livestock Program website, under “DNA,” or by clicking here.

Step 4 - Visit Extension Office
In addition to the exhibitor(s) and a parent/guardian signing the nomination paperwork, youth will have their agent (Ag Instructor) sign the declaration and nomination forms. Extension Agents will also provide the barcode sticker(s) for the nomination form that corresponds to the tag number(s) for each animal being nominated.

Step 5 - Mail Nominations
Exhibitors will mail their completed declaration form, nomination form(s), DNA envelope, and check/money order to K-State to be processed. Certified mail is highly encouraged and suggested. Postmark deadlines are strictly enforced. After April 1 - Market Beech, June 15 - Market Sheep, Commodity Tours, Market Hog, Commercial Cattle, Commercial Beef, and ALL Meat Grades. Regardless of postmark date, nomination materials MUST be received within 15 days of the deadline to be accepted. K-State, KJLS, and the Kansas State Fair are not responsible for lost or misdirected mail.

Step 6 - Verify Nominations Submitted
K-State will process nominations received and post weekly updates regarding complete/incomplete nomination on the Youth Livestock Program website, under “Nominated Livestock > Check Nominated Livestock.” It may also be accessed by clicking here. During this process, insects will also be sent to individual families/households listing the species and tag numbers received, as well as stating whether or not their nominations are complete. This is the exhibitor/family’s opportunity to verify the accuracy of the nomination information received by K-State.

You’re not done yet! Final Step - OFFICIALLY ENTER SHOW!

NOMINATION IS NOT AN ENTRY. Exhibitors MUST submit an official ENTRY for the appropriate youth livestock show. The Kansas State Fair and Kansas Junior Livestock Show are responsible for managing their own entry processes. Exhibitors must follow the proper entry process for each show. Exhibitors must have a valid entry on file at each respective entity to be eligible to show. Kansas State Fair Grand Drive (youth livestock show) entries are cut by July 15th. The KJLS entry deadline is August 15th. Entry information may be obtained from the local Extension office, or the website for each show.
